ONBOARDING ACCELERATOR FOR MICROSOFT CLOUD FOR FINANCIAL SERVICES

Capgemini's Onboarding Accelerator for Microsoft Cloud for Financial Services (MC4FSI) brings together our unmatched depth of capabilities across Microsoft Azure, Microsoft Power Platform, Microsoft 365, and Microsoft Dynamics 365 to deliver an intelligent, robust, secure and compliant cloud for financial services. Leveraging our extensive experience with different customers across Financial Services domain, we help you to fast track your cloud adoption and digital transformation journey, unlock new opportunities and start driving business value from MC4FSI.

- Accelerate adoption of MC4FSI with structured organization change management approach
- Manage your MC4FSI environment and provide operational support to users

- Showcase MC4FSI with demos and Art of the Possible scenarios
- Ideate and brainstorm suitable use cases for using MC4FSI.
- Solution design with rapid prototyping and pilot implementation

- Integrate MC4FSI with other core systems and partner solutions existing in your enterprise landscape

Integrate

- Augment MC4FSI features & capabilities with Capgemini's industry specific digital solutions

Augment

Implement

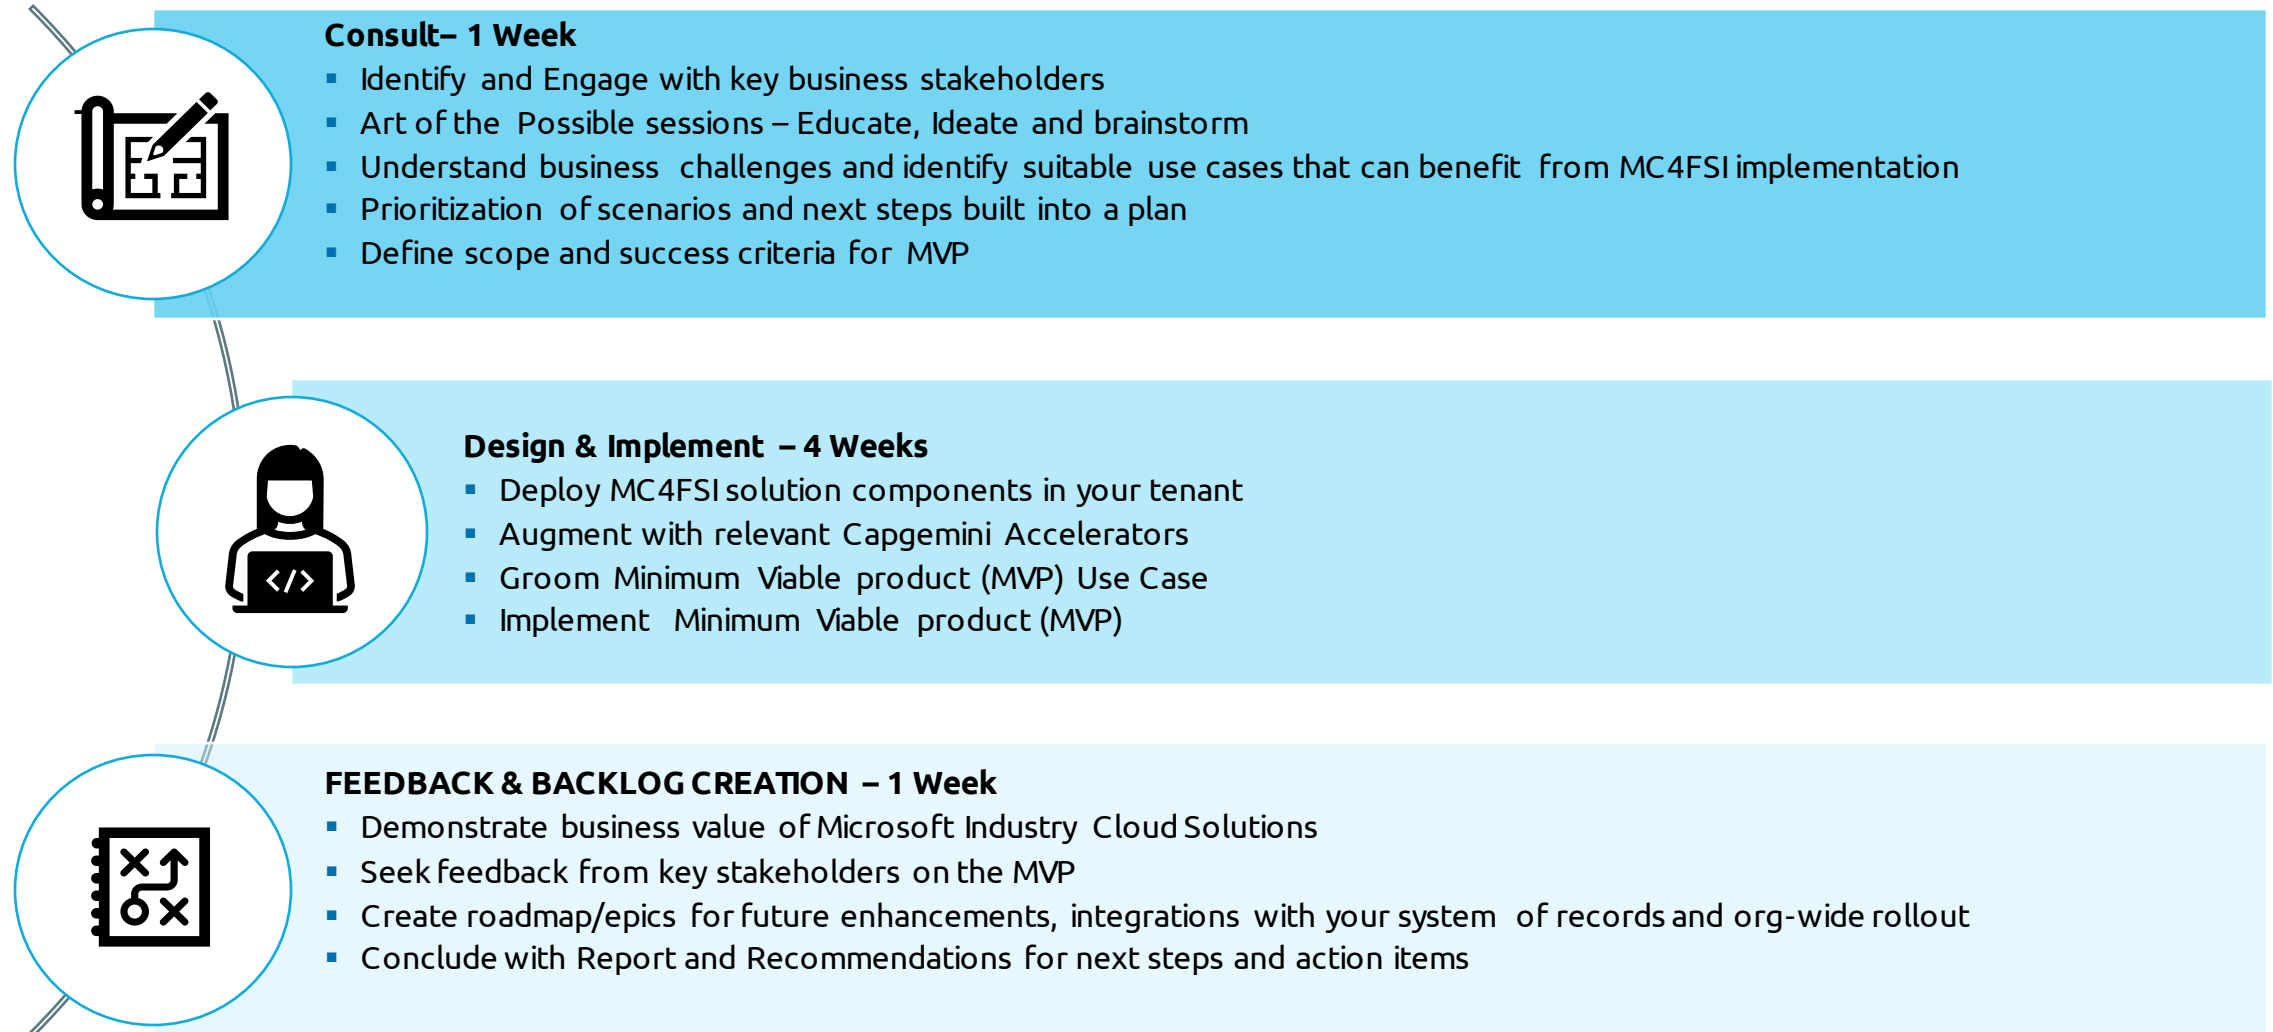

- Implement and configure MC4FSI in your tenant with accelerated Go To Market
- Automate your business process and customize as per your functional needs
- Provide a foundation of privacy, security, and regulatory compliance

6-WEEK RAPID PROTOTYPING ENGAGEMENT MODEL

CAPGEMINI ONBOARDING ACCELERATOR

The EmPowered Platform

There is no 'one-size-fits-all' vision for how the Power Platform can deliver value for organisations, but we see a consistent need to focus on the same core elements as part of the transformation journey.

Our Perspective

Creating an exceptional Employee digital workplace means understanding your colleagues, their objectives and working habits, and identifying how digital workplace technologies can support them.

The Power Platform can deliver exceptional value within an organisation, but in order to accelerate this value there are a number of areas that need to be addressed to set the Power Platform up for success.

We often find that organisations are prioritising the creation of the digital guardrails and set up of the CoE, and underprioritizing developing the Innovation funnel with the business and understanding the true business case and cost benefits the Power Platform can provide.

Power Boost Library:

To enable employees to build Apps faster, suite of reusable components have been created that save time & effort and provide consistent design within the apps.
